

# INFRASTRUCTURE SERVICES

## RACKS, POWER, CABLE MANAGEMENT, CONNECTIVITY, COOLING

Rahi Systems specializes in data center infrastructure services. Our team has extensive experience in the design of space- and power-optimized environments that reduce operational overhead and total cost of ownership. We are adept at balancing today's cost-management concerns with a strategic vision that maximizes long-term value. Our end-to-end implementation services help keep projects on time and within budget while minimizing the drain on in-house IT resources.
