

UD POCKET

PORTABLE UNIVERSAL DESKTOP THIN CLIENT

The IGEL UD Pocket is the portable thin client for evolving workspace environments. No larger than a paper clip, UD Pocket provides the flexibility to boot from IGEL Universal Desktop or the local operating system on a PC, laptop or any compatible x86, 64-bit CPU based endpoint device. A high performance solution that enables remote and mobile workers to access cloud services, server-based computing applications or virtual desktops. UD Pocket is automatically integrated into the IGEL Universal Management Suite (UMS) for remote support, deployment and management. UD Pocket extends the functionality of existing hardware with two operating systems on one endpoint. Once the user has finished accessing IGEL Universal Desktop through the UD Pocket, they can simply reboot from the local OS and return to the local desktop.

UD Pocket also features a perpetual license assigned to each device with regular software updates, making it a cost-effective solution for organizations of all sizes including those with:

- Bring your own device (BYOD)
- A remote workforce operating its own endpoints
- Suppliers, contractors and freelance workers requiring controlled access to the IT networks

UD Pocket benefits:

- Financial services and insurance companies
- Educational institutions
- Public service and state agencies
- Logistics and supply chain companies
- Call center environments

SIMPLE

- Out-of-the-box: simply insert, boot up and start
- Manageable from UMS, as with all IGEL Thin Clients
 - Scalability: unlimited clients, one management

SMART

- Small but mighty: portable, robust and water-proof
- Universally deployable with Citrix, VMware, Microsoft and more
- Multiple user: license is bundled with the UD Pocket, not to the endpoint

SECURE

- The IT administrator has complete control
- Remote management for increased security
 - Improves security and cost efficiency for BYOD

TECHNICAL SPECIFICATION

SYSTEM REQUIREMENTS FOR THE ENDPOINT	
CPU	x86-Architecture, 64-bit support
RAM	≥ 2 GB
TECHNICAL DETAILS	
Operating system	IGEL Linux 10
Dimensions	22.4 mm x 12.2 mm x 6 mm
Weight	3.3 g
Flash Memory	8 GB
Interface	USB 3.0, downward compatible with USB 2.0
System	Chip-on-Board (COB)
CERTIFICATION	
CE, FCC, BSMI, RCM, KC	For questions about product compliance or certification, please contact regulatory.compliance@igel.com .
HARDWARE WARRANTY	
Up to 3 years	UD Pocket comes with a standard two-year warranty (starting from the date of delivery). Take advantage of our free online registration to extend the warranty by one year.
SOFTWARE AND SUPPORT	
Software Updates	Regular software updates included up to 3 years after product EOL.
Technical Support	Included
